Re: Notice of Responsibility
DEQE Case #3 - 168

Dear Mr. Chalpin,

I have received your letter dated December 29, 1986. As I discussed at length with Ida Babroudi, it is the intention of American Glue & Resin, Inc. to cooperate with the Dept. of Environmental Quality Engineering.

Although we immediately contacted environmental consulting firms, we have not as yet been able to finalize any arrangements with a firm. We will attempt to do this expeditiously.

After my telephone conversation with Ms. Babroudi on January 7, 1987, I was pleased that she agreed to our request for an extension of the January 12, 1987 deadline.

Once our agreement with a consulting firm is finalized, I would appreciate the opportunity of our meeting with you to review the specifics of the Dept. of Environmental Quality Engineering's requests.

Sincerely,

AMERICAN GLUE & RESIN, INC
